We believe that a man who understands his business can be as well soured that the business in which he is engaged as well done, if he does it himself, as he would be if it were entrusted to another; hence we devote our whole time to the instruction and amusement of these entrusted to our cere.

entrusted to another; necessive avoide our residence of the instruction and amusement of these entrusted to our cere.

We believe that boys who are pursuing the English studies exclusively, will receive more attention and make better progress in a school where these studies receive the entire attention of the teacher, than in schools were the dead and foreign languages occupy the time of the principal, and the boy who studies only the English branches is left to the ears of some hireling who feels no responsibility.

We believe that the sincers affection retained and manifested toward us by those who were formerly pupils, and are now in the prime of manhood, in this sity and vicinity, filling positions of honor and great responsibility, as merchants, ship-builders, mechanics, expounders of law, medicine and the geopel, is an evidence of the kind treatment they received while with us, and gives us confidence in ourselves to continue in the employment which in youth we preferred to all others, and have constantly followed for thirty-two years.

We believe that the sincerc, heartful attachment of our present pupils, is a proof that years have not made us mores, nor scaled up the better feelings of our nature.

We believe in being well paid for our time and the expenses to which we are subject; hence we charge \$200 per year of 44 weeks, to be divided into two sessions of 22 weeks each. The next session will commence on the first MONDAY in May, on which day we shall accompany the members of the school from the city to the Institute.

We believe in giving 100 cents for one dollar; and that any one who can make anything by the operation, is a good funancier.

These and many other things too numerous to mention, we believe; and for our ability and disposition to perform what we believe to be our duly, we will with pleasure refer those who may desire it to many of the most respectable denizes of this city.
